

Bloomsburg Municipal Airport Reception

A research program at the University of Illinois found that 100% of pilots who had no instrument training lost control of the aircraft after entering simulated IMC—in an average of 178 seconds.! In this seminar we will discuss the causes of spatial disorientation and observe its effects using the Barany Chair, a device for simulating disorientation (safely, on the ground). Click on the link below to register TODAY!

Directions: Bloomsburg Municipal Airport Terminal Building
See Additional Information below for more about the evening.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
